

AT&T FamilyMap

Know where your kids and loved ones are at any time!

AT&T FamilyMap provides peace of mind by being able to conveniently locate a family member from your wireless phone or PC and know that your family's information is secure and private

Locate your family members

- Conveniently locate a family member's wireless phone on a map from your mobile phone or PC
- Want to verify that your child arrives home from school each day? Set up a Schedule Check to automatically get location information sent to you via text message or email
- Locate any phone indoors or outdoors on the AT&T Network

How Does it Work?

- AT&T phones that use A-GPS can return very accurate locations (within a few yards), if the phone can "see" the GPS satellites. This could be while using the phone outside or near the window of a car for example.
- For all other phones, the system automatically uses alternative location technologies. In these cases, you may receive a location with an accuracy of a few hundred yards or more. When you request a location, you will be given the best possible location fix given the conditions (Prepaid and Go Phones are not supported)
- Phones receive a text message from AT&T FamilyMap when they become locatable. Additionally, locatable phones receive a periodic notification via text message that they can be located. These messages are received about once a month.
- You can only locate AT&T phones that are on your wireless account

What does it cost?

\$9.99 (for up to two phones)
\$14.99 (for up to five phones)

Lifestyle:

- ▶ Work Play ▶ Family

Operating System Requirements:

Windows Blackberry Symbian

How do I get it on my phone?

- Available when you activate or upgrade service or simply contact your Spring representative to have this added to your account
- Go online to access your account to create a "Schedule Check" and select the Schedule Link for the family member you want to make a Schedule Check for.
- Choose the **Place** or select **New place** and select the time and day of the week you want to locate your family member.
